Art Unit: 3651

The disclosure is objected to because of the following informalities: In the second line of claim 14 it appears as if "an" should be changed to --and--. Also in line 2 of claim 15 "rotatable" has been misspelled.

Appropriate correction is required.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 13 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In the second line of claim 13 there is lack of antecedent basis for "the rotation".

Claims 10 and 11 are rejected under 35 U.S.C. 102(b) as being anticipated by Karr (U.S. Patent 3,379,300).

Karr shows a circular link chain 36 having a plurality of plates 30 located on the chain, the plates have a stepped down portion as shown in Figure 3 that extends under an adjoining plate, a u-shaped traveling guide 42 shown in Figure 5, and the plates are connected to one another by a single removable pin 40.

Re claim 11, the units all have the same structure.

Claims 12, 14 and 15 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 3651

Claim 13 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Claims 1-9 are allowed.

Applicant's arguments with respect to claims 10-15 have been considered but are moot in view of the new ground(s) of rejection.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

Any inquiry concerning this communication should be directed to James R Bidwell at telephone number (703)308-1144.
